kson.eu@gmail.com

+48 793-321-044

My career goal is to become a proficient front-end developer and to create visually outstanding products.
Every day I use HTML, Sass and JavaScript for designing and coding responsive websites.
I'm very interested in UX / UI.
In my previous job (as a photographer) I've developed strong aesthetic and customer service skills.
I'm an enthusiastic learner, highly-motivated and well organized person, eager to work as a team player.

Skills

HTML5	CSS3	SCSS	Bootstrap 4	JavaScript	jQuery	GIT	SKETCH	PHOTOSHOP
